

Synology - Host Unifi for FREE on Synology NAS

All you have to do is add a scheduled task script under tasks and run the following

```
docker run -d --name=Unifi-Controller \  
-p 3478:3478/udp \  
-p 10001:10001/udp \  
-p 5514:5514/udp \  
-p 8080:8080 \  
-p 8443:8443 \  
-p 8880:8880 \  
-p 8843:8843 \  
-e PUID=1026 \  
-e PGID=100 \  
-e TZ=Europe/London \  
-v /volume1/docker/unifi:/config \  
--restart always \  
ghcr.io/linuxserver/unifi-controller
```
